Near Vaccarino cemetery (which you will see below from the embankment), the road, and therefore also the path, are closed until km 7.2 (practically all of Vaccarino) until a date to be decided. Once you arrive on the main road, stay on the left side and follow it for 600 meters paying attention to traffic, when you arrive at the traffic light (600 meters from the left turn), you will find the path again. left.
